

STRENGTH YOU CAN SEE. PERFORMANCE YOU CAN FEEL.

WHY CUSTOMERS UPGRADE TO MATRIX

THE SHOWROOM STORY

Not another smooth stainless workstation.

Matrix turns professional-grade stainless steel into a true design feature. Its signature embossed hex pattern extends across all five interior surfaces, adding structural rigidity, helping minimize scratches and creating a distinctive look unlike an ordinary stainless-steel sink.

EMBOSSSED HEX SURFACE

Hex-reinforced basin

Patterned across all five interior surfaces to add structural rigidity.

Less cookware contact

The raised hex pattern reduces direct contact with cookware, helping minimize scratches.

Nano surface protection

Repels water spots and mineral buildup while helping water drain.

Built-in workstation

Integrated ledges keep prep and drying accessories over the bowl.

T304 / 16-gauge steel

Professional-grade strength for heavy cookware and demanding daily use.

Center-rear drain

Moves plumbing back to preserve more usable cabinet space below.

INCLUDED WITH EVERY MODEL

A complete workstation package, ready to prep, rinse and dry.

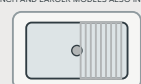

CUTTING BOARD
SLIDES ACROSS LEDGES

STRAINER AND STRAINER CAP
CAP COVERS THE DRAIN

24 INCH AND LARGER MODELS ALSO INCLUDE

SILICONE DRYING MAT
DRAINS INTO THE BOWL

One collection. Nine configurations.

Choose top mount, undermount or apron front in single and double bowl formats, from compact 17-inch prep sinks to full-size 33-inch workstations.
